Dear Jim,

Yesterday I read and markedup the copy of Lane's condensation in Sepia.

It appears not to be completely identical with Zorro.

Instead of writing you separately about what I noted when we make copies again I'll make a copy that will show the markings. In most cases they will not require any explanation.

Ripoff and factual error are obvious.

I believe the quotes of Jimmy are not direct quotes.

I know some are not what Jimmy has said in the past.

Hastily,
